

Medicaid Expansion Overview and Timeline

The Honorable William A. Hazel, Jr., M.D.
Secretary of Health and Human Resources
Medicaid Innovation and Reform Commission

April 7, 2014

Potential Enrollment Composition

- Virginia's Medicaid program currently covers only certain populations, and only to specified income levels
- A newly eligible group would include childless adults up to 133% FPL. It would also extend eligibility to elderly & disabled individuals and caretaker parents beyond current income level criteria.

Medicaid Expansion in Virginia

Overview	Initial plan can be implemented through a State Plan Amendment and a 1915b waiver for managed care. Will include services provided through the seven currently contracted Medicaid health plans. Will include wraparound services, such as community mental health.
Private Health Plans	Utilize 7 existing private health plans/MCOs
Premiums	None
Cost-sharing	Maintain current cost sharing for Medicaid enrollees
Enrollment Process	Eligibility assessed at Federal Facilitated Market Place and transferred to Virginia OR by the new Virginia eligibility process electronically, via phone, by mail/fax, or in person. Plan choice and enrollment in health plan through private enrollment broker.
Insurance Plan Payment	Virginia will pay capitated payment (i.e. 100% premium) on behalf of members to the health plans. Health plans at full risk.

CLOSING THE COVERAGE GAP
