# Phase 2: Approval to Test Innovative Pilot Models

- Due to an unprecedented level of interest in health care and delivery system innovation DMAS is working with CMS to obtain approval to implement smaller pilot programs that test reforms on a rapid-cycle basis.
- DMAS is currently working with CMS for authority to implement a specific pilot model where DMAS may contract with a limited-network, known as “**Centers of Excellence.**”
- DMAS also plans to test pilot models identified this winter through the Virginia Center for Health Innovation and its **State Innovation Model** grant submission.
- The Pilot Model concept was initially described in **Implementing Medicaid Reform in Virginia: A summary of planned reforms for review by the Centers for Medicare and Medicaid Services and interested stakeholders**

# Phase 2: Approval to Test Innovative Pilot Models

## Centers for Excellence

- Combining state-of-the-art technology and highly regarded physicians with multidisciplinary care, low-wait times, patient outreach, and a patient-friendly facility (e.g., VCU's Virginia Coordinated Care)
- **Required flexibility from CMS:** Ability to waive *Statewideness*, *Comparability of Services*, and *Freedom of Choice*
- **Assurance Standards:** Quality, Utilization, Access, Continuity of Care, Beneficiary Information, Provider Capacity Standards

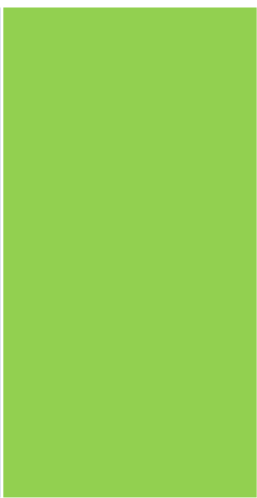

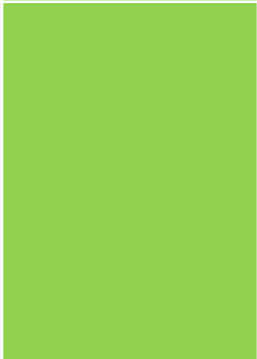

## Virginia Center for Health Innovation (VCHI)

- Action Strategies include
  - Patient-Centered Care
  - Prenatal and Early Childhood Health
  - Physical and Behavioral Health Integration
  - Care Transitions
  - Medication Management
  - Value-Based Insurance Design
