**Comment** - This expansion of Medicaid is important. If it is NOT expanded, hundreds of thousands (and probably more) of Virginians will find themselves out in the cold- Unable to procure insurance, less able to work, and more likely to lose what jobs they have due to illnesses. My own fiance, a woman who is currently attending her local community college, has neurological problems and needs insurance, which she cannot afford right now. Please consider this when making your decision, and make it timely. Thank you.
