First Name - Linda

Last Name - West

Organization Name - individual

Comment - I am strongly opposed to this expansion. The hard-working middle class is being squeezed financially on a continuing basis. These are the hardworking, tax-paying citizens who now, because of our government not doing its job, are facing even more challenging days ahead. We absolutely cannot trust the Federal government to fulfill its promise to help with funding this expansion. People who have been fortunate to have health insurance will soon be joining the uninsured if these burdens keep increasing.
