Comment - I am for the medicaid expansion. Without the expansion there will be a gap for people who don't meet the current medicaid and the market place. Even though I don't support everything about "obamacare" I do feel that the expansion should be for adults that have a job or a student. I also don't think that our congress should be except from the marketplace. What is suppose to be good enough for us should be good enough for you...
