First Name - Amber

Last Name - Caldwell

Organization Name - None

Comment - I am a voter in Virginia and I support the expansion of Medicaid in our state. I don't understand why we would not do this. People are working harder and harder for less and less real pay, all while health care costs, housing, food, gas and just living get more and more expensive. Expanding Medicaid only helps hard-working Virginians. Having more of our citizens covered with insurance helps all of us by keeping workers healthier and keeping hospitals from having to write off emergency treatment for people who can't pay, which only increases health care costs for all of us. I support expanding Medicaid in Virginia.
