Dear Medicaid Innovation and Reform Commission,

With so many more people, families and children, slipping into poverty because of the recession, the sequester, and now the government shut down, health care often loses to just getting food on the table. Don't leave these children and families without the basic safety net of health care support through Medicaid. We are better than that - a better state, a better country.

As Jesus said "What ye do unto the least of these ye do unto me". Take care of our children and their families

Sincerely,

Dr. Barbara Sikes
