We, as a society, are only healthy to the extent that those least able to pay remain healthy; public health must be viewed systemically, as a "big picture," which it is.

I therefore urge you to expand Medicaid in VA, and do anything else needed to make the ACA work. As with Medicare and Social Security before it, Obamacare can be improved along the way with little changes/fixes here and there as needed, but for now, lets just get it rolling.

Thank You.
