About file - I would like to take this opportunity to point out the flaws of Medicaid expansion. It is a well known FACT that one out of four doctors in Virginia turn down Medicaid patients. Also, Medicaid patients are almost twice as likely to die as people who have private insurance plans, ie;government employees. My question to Medicaid expansion proponents, who constantly regurgitate their refuted claims about the "benefits" of expanding Medicaid, if this is such a "benefit" why have the President, Senate and Congress all refused to be covered under this plan and have all requested waivers? They have chosen to exempt themselves from being forced to participate in "Obamacare"- why? Tell the truth about "Obamacare." It is detrimental to Americans who will have to pay the full cost of medical services for illegal aliens and is far below the current health care system which is the best in the world. I say NO to "Obamacare".
