Dear Medicaid Innovation and Reform Commission,

I believe that Medicaid is a valuable program that should be extended to all those who need medical attention but cannot afford it. I was hospitalized for 2 months shortly after losing a job due to a fire. But because I had applied and was eligible to receive Benefits, I did not have to worry about spending the rest of my life paying it back. Health care is a basic human right and Medicaid fills that need for so many in Virginia.

Sincerely,
