First Name - Carolyn**Last Name** - Worssam**Organization Name** -

Comment - I do not support Health Care Exchanges for the following reasons: 1. Rationing of Care based on the Complete Lives System; 2. A state governing board of political appointees will implement Obamacare; 3. State based Exchanges enable imposition of penalties on employers for the failure to offer health insurance, or failure to offer 'minimum essential coverage' as defined in the Affordable Care Act; 4. All Exchange coverage options are HMO-like managed care plans offering federally approved "qualified health plan" policies. Catastrophic major medical plans - true insurance - has been outlawed; 5. Abortions will be covered; 6. Privacy Intrusions; 7. Higher Premiums. An estimated 29 million Americans will not be covered by the Affordable Care Act; 8. There is no private insurance. Exchange coverage is "medicaid for the middle class" (<http://reut.rs/Ygzugl>); 9. IRS Enforcement possible expensive repayments to IRS ("clawbacks"); 10. A complex 21 page hardcopy federal application for coverage. They are gathering information on the American People.
