First Name - Cheryl

Last Name - Mathews

Organization Name - Retired College Professor

Comment - I urge Virginia to expand Medicaid coverage. It is not only the right (moral) thing to do but makes sense economically. The ability to cover 400,000 Virginians with health coverage is a great opportunity and good for everyone. Jobs will be created, which is important, but people who are not covered now, will receive health care. This is a win - win call.
