Comment - I feel very sad to know that the Commission is having to consider this form of Medicaid Expansion. In our heart of hearts we all know that this will be another failing part of a failing piece of legislation. No matter how much is given to the State of Virginia in funding, it will never be enough to compensate the many people needing help. They will be left with even less benefit of healthcare than currently available and even fewer medical personnel to administer. How many members of the Commission would assign themselves to receive such care.....? I trust in God that he will guide you all well.
