I urge you to please expand Medicaid to 138% of the poverty level. It is imperative that more of our citizens have access to health care for themselves and their children. This is a win win for the people of Virginia. Those who have insurance get medical care timely and preventively and it saves \$ for the state and quality of life for the individuals who will be healthier and more productive in the workforce or for children....being able to attend school and get an education and becoming again more productive.

Please do the right thing and pass this expansion.

Sincerely,

Clarine Spetzler
