**Comment** - Well where should I start. I'm disabled with a special needs child with no job and no medical coverage, Limited income under \$1000 a month and I'm not eligible? Disc degenerative disease, degenerative Joint disease, Rheumatoid Arthritis, CMT2 and can't even get my meds! And no I'm not eligible? Please consider these situations, Not everyone uses the system. Thank you for letting me tell you how I feel, I feel I worked for nothing and now I can't work and I will be fined for not AFFORDING medical coverage.
