I strongly urge that you say "NO" to Medicaid expansion. As a concerned and informed citizen I am aware that many doctors are refusing to accept new Medicaid patients. If the Medicaid rolls increase, who will treat these patients? The life expectancy outcomes for Medicaid patients are diminished when compared to private insurance patients. The only "benefits" to expanding Medicaid are to those who don't need it but who will reap the benefits of further bloating our government and worming their way into our private lives through the abomination of Obamacare. Virginians cannot afford to further subsidize a broken system. We certainly cannot afford to expand it! "NO"!!!! to expansion!
