Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

This is an important investment in our future. This will enable those individuals who need it to get regular healthcare, medications and other services necessary to reduce costs of catastrophic care. Avoiding catastrophic healthcare costs for diabetes, heart disease, etc. is critical to this country. It is also the right thing to do for so many in need. How can we not do this????? These leaders voting on this issue need to be able to answer this question to themselves and the rest of us!!

Sincerely,

Elizabeth Campbell
