From Fran and Jim Robeson:

Our comment are: Do not expand Medicare in Virginia. At this time Obamacare is totally dysfunctional and no one will be able to afford the premiums. Obviously, Insurance Companies will cover anything, existing conditions, no lifetime limits, allowing children to stay on their parent policy until 26, etc., however, they will adjust the premiums accordingly and look what happened.

I believe Obama's constituency thought this Obama Care would be free! No one in their right mind will sign up for Obamacare but seek out insurance in the private market.

Thank you for paying attention to this issue and passing along our comments.

Fran and Jim Robeson
