Dear Medicaid Innovation and Reform Commission,

All Virginians deserve access to affordable healthcare as this not only benefits those without it now but it benefits the community of taxpayers and the Commonwealth in total. I urge your support to expand health care in Virginia now. It is the right, fair, and just thing to do. What if you were the one without health care? What if you had the medically fragile child that had already exhausted insurance medical limits? What if.... I urge you to just do what is right and lay politics and opinions aside. Thank you.

Sincerely,

Gayle Turner
