Comment - Dear Sir or Madam, It seems to me that, if Medicaid were to expand to cover certain people who presently have to resort to the Emergency Room for care, they would be able to use the regular hospital resources vice the ER. Isn't the ER the most expensive setting for hospital care? Wouldn't the hospital ultimately reduce their ER costs by expanding the Medicaid eligibility coverage? Wouldn't this be a win win for the Virginia tax payers? This appears to be a no brainer for all concerned. Please expand the Medicaid coverage to those individuals who are currently falling through the medical coverage cracks. We, as a people, must do better for others in need.
