First Name - Jeanne

Last Name - Wall

Organization Name -

Comment - I am encouraging MIRC to take advantage of this new law to expand medicade. Many working adults like myself have been hit hard by Wall St.'s radical banking procedures and the resulting economic down turn. We work, pay our bills, but find it harder and harder to pay for health insurance. That why is is maddening to me to live in a state that wont expand medicade when the law states most of it will be covered by the Federal government. I feel Virginia is trying to take a political stance that cost the most needy and vulnerable to suffer and know the anxiety of no health insurance. We are hard working working adults, myself 62, small business owner, and educator. We are not looking for a hand out but an equal opportunity to enjoy the benefits of good health and health care. I urge the MIRC to not make this an ideological battle, do not make this a sabotage Obamacare at all cost. WE need the expansion of medicade. We Virginians want the same health benefits being taken advantage of by other states for their citizens.
