Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

Up to 400,000 Virginians could have access to quality health insurance under the Affordable Care Act, but right now they await a decision from a panel of Virginia legislators. The Medicaid Innovation and Reform Commission is deciding whether Virginia will expand Medicaid, a decision that would save money and lives.

Virginians of every income level need the security of knowing that when they get sick, they can see a doctor without an enormous bill once they've gotten well. But they won't have that security unless the panel decides to expand Medicaid in Virginia.

Veterans, nurses, home health care providers, and working families would benefit. It's time to move forward with implementing the Affordable Care Act and make our health care system better for everyone.

Sincerely,

Jonathan Greenberg
