First Name - Kenneth

Last Name - McDermott

Organization Name - Retired

Comment - We know Obamacare and Medicaid expansion won't save lives and will instead hurt the folks who need the most help. We know Obamacare and Medicaid expansion will lead to higher costs and a lower quality of care. We know Obamacare and Medicaid expansion will destroy the doctor patient relationship. Since we know all of these things why is there still hesitation - could it be a \$\$\$ issue? Duhhh - forget the money and do the right thing - DON'T EXPAND A BROKEN SYSTEM!!
