First Name - Laurie

Last Name - Dodd

Organization Name -

Comment - I strongly favor Medicaid Expansion in Virginia! So many of the working poor have no access to health care. We all pay federal taxes, so all states should opt in for the benefits to their residents. And I will benefit, even though I am not eligible for Medicaid, since my bills will not be increased (as much) to cover medical care for the poor who use emergency rooms rather than lower-cost options.
