**First Name** - Marc

**Last Name** - Reynolds

**Organization Name** - Private citizen

**About file** - This "law" is nothing more than a very small group of people, whom think they know better than the regular people. This law is a TAX and control on "We THE PEOPLE." Do not help these so called "people," For they wish and are creating a new class system in this wonderful country and state of Virginia. Remember those that go along with this tranny are no better than the rest of the people. So do not allowed yourself to be persuaded to this unholy alliance with the "supposed smart people! "
