Comment - The theory behind the health plan is not 100% offensive. I can understand what they are trying to do. However, the scope of the project is missing the big picture. Not only is it inconsiderate of small business owners and small I companies, I feel the timing of implementation is mindless political ego fluffing BS. Why? Because we are spending MORE tax dollars ... plain and simple. American can't pay her bills as it is. And this administration is seriously going to push this baby out now? How are we going to pay for the additional offices and the servers, the overhead and supplies, the annual salaries of the army of individuals who will be required to keep up with this program? SIMPLE ... RAISE THE DEPT CEILING, right Obama? Shoot, the Obamacare web sites only cost \$634 million, I'm sure the rest of the implementation of this healthcare will keep the budget under a trillion ... right? Right?
