Medicaid expansion in Virginia.pdf

7K

I support Medicaid expansion in Virginia. The Federal Government will support States by providing 100% of the cost of newly eligible people between 2014 and 2016, 95% of the costs in 2017, 94% of the costs in 2018, 93% of the costs in 2019, and 90 percent matching for subsequent years. Virginia should take maximum advantage of this arrangement.
