I'm a registered voter in Virginia. I strongly oppose Obama Care for many reasons. Anything that long and controlled by the government can't work and will hurt individuals and the country, plus when have our Federal Government done anything that didn't cost a lot more than advertised.

The Supreme Court said it was a tax and in my opinion it was sold to Congress and We The People by fraud, which isn't right. Just repeal it and submit an exact copy and call it a tax and see if it passes.

The President can't Constitutionally just decide what parts of a bill to enforce and what wavers to give to his friends, Congress, Unions and large businesses. That's not a law of the land. That is manipulation and not Government "for the People".

Parts that were to be implemented by law haven't been. Someone has broken the law and should go to jail, or repeal it all and rewrite it by a new law.

Its bedrock is that everyone will share the cost, but those include a lot for people who willingly live dangerous and unhealthy life styles. That isn't fair and penalizes those who are responsible. Rewarding being irresponsible and penalizing those that are responsible just breaks all kinds of logic.
