First Name - Robert

Last Name - Becker

Organization Name -

Comment - My brother-in-law has worked his whole life. He is 55 and has been out of work for at least three years. He has some medical problems and needs medical care. He can still contribute to his community but the kind of medical care he needs will be unaffordable for him in any entry level job he is likely to get. Medicaid expansion could get him the medical care he needs to live a better life as well as make it much more likely that he will be able to get and keep a job. Expand medicaid so all the folks like my brother-in-law can live a better life.
