**First Name** - Robert

**Last Name** - Yates

**Organization Name** -

**Comment** - After 30 plus years of government service, I see this Commission as another drain on medical resources. I applaud the idea of providing medical care for those who cannot afford it but adding to an already grossly bloated medical bureaucracy moves us further away from that end goal rather than closer. Let's use what we have to figure this out. It's an arithmetic problem that affects real lives so let's buckle down, put our heads together and figure it out. God bless and all the best, RY
