First Name - Sandra

Last Name - Jarvis

Organization Name - Virginia Organizing

Comment - I want the Commission to know that I am in favor of Medicaid expansion in Virginia. Our state has many hard working people who are almost below the pverty line. Sometimes they have had to wait in line overnight at fairs offering free health care. That should not happen in America and it definitely should not happen in our state. Please act to give our people the dignity and security of access to health care.
