Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

Nothing spells "backwards country" in my eyes like lacking medical services for ALL members of society, wether rich or poor. Nobody can seriously believe that the present system of "health care" for the poor (only treat illness that has become life threatening, and then in the most expensive way - through emergency rooms) is even close to optimal. Expanding Medicare is the minimum we can do. I refuse to consider any politician a "Christian" in the true sense of the word who will deny this to the weakest members of our society.

Sincerely,

Sebastian Kuhn
