Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

Virginia is a prosperous and well run state and it should be mindful of the needs of all its citizens, especially the most vulnerable, who need Medicaid in order to help them through times of either temporary or long term unemployment, part-time employment, illness, and other financial hardships. If we can remember and be grateful for how fortunate we are to have good health and financial well- being - then it should be possible to imagine what it would be like to need help and have nothing available. Please expand Medicaid coverage to needy Virginians.

Sincerely,

Susan Cordray
