First Name - Sylvia

Last Name - Rutherford

Organization Name -

Comment - The present Medicaid system in Virginia already has problems and needs to fixed. I trust Governor McDonnell, and feel that if he made the decision to not expand the program at our state's expense, even with the government supposedly paying for the majority of expenses, I believe that is the right decision. The whole Obamacare program is flawed and needs to be revamped, at the very least. Virginia doesn't need to carry the water for the Federal Program.
