Dear MIRC Commission,

From: Taryn Potts

Page 1
Medicaid reform and expansion
in Virginia

What you do matters?
Brings together, create ways to
improve and expand quality care
If we can invest more in
the lives of people & mental
illness

and expand our Medicaid cover-
ed resources, that are so greatly
needed in our area and in the
nation, this is a positive and
productive investment. Many neg-
ative things have happened in our
society because of the lack of ^{and medical} coverage
in our country \leftarrow ^{community and}

Our soldiers coming home will
need our care and support along with
their families. $\frac{3}{4}$ of our jail inmates
have a mental illness, many of these

Page 2

10-14-12

people try to relieve their mental illness by trying to self-medicate w/ alcohol and/or drugs, ^{which} creates a larger problem for our people. It's more costly to house inmates because of crimes created ^{because of} lack of help and support ^{five} resources provided by medicare reform and immigration ^{also}. Our soldiers and other persons w/ PTSD or other mental ~~health~~ illness, are also committing suicide at a alarming rate, its an epidemic in this country, this is a tragedy and leaves families and children, often having to depend on the government for even more help with finances, and more severe need for medicare coverage causing our state and nation more

together we can help ~~overcome~~ ~~the~~ ~~problem~~ of mental illness, if ~~these people keep trying to go on with~~ ~~have a mental illness~~

Page 3

all people
of
mental
illness
expand
the
number
of
people
with
mental
illness
in
the
country

depend upon us, because of more
despair: created because of
persons and children ^{not having} ~~not~~ ~~being~~ ~~able~~
which would cost our states and
government even more money.
We need to provide Medicaid
expansions to meet the needs
of a healthier, more productive
America. People with mental illness
don't take care of their physical
health at times, and it's bad
for our children that have
parents with mental illness, or
suffer with a mental illness,
and I have experienced it
all first hand. Insight: lets
create a healthier society

10-14-13
From 11:30 pm.

U.S.

which will prove to make ~~us~~
use our given abilities to
the fullest of every ones po-
tential.
