Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

The people who would be covered by expanding medicaid are the ones who need help most. Being low income they can least afford the food that builds health. They are more likely to have weak immune systems due to lacl of health building food and less able to get medical help when they do get sick. Expanding medicaid is a minimal first step to helping them.

Sincerely,

Theo Giesy
