Last Name - Waddell

Organization Name - Private Citizen

About file - Expansion Of Medicaid In Virginia I am opposed to the expansion of Medicaid in Virginia. My reasons are: Medicaid and Medicare are both broke now and need to be reformed to sustainability before adding more of anything; the Federal government is broke and its current liabilities are unsustainable: I don't trust it to stick to its promises; any one with any experience, knows the Federal government will change the rules to suit its whims and its own survival; and, While many are deserving, the current trend - nay cultural fad - by the many so-called disadvantaged, is to "game" the system; and, if Virginia isn't as an attractive "push-over" for overly generous benefits as adjoining states ; the "gamesmen" will vote with their feet (seek their fortune) and move elsewhere. Very Respectfully, W. R. (Ray) Waddell [REDACTED] Verona, Va [REDACTED]
