Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

No one in this country should have to live without the knowledge and security that they can go to the doctor or dentist when they need to.

No one should have to worry that if they seek medical attention for an injury or illness that they might have to go without food, or risk losing their home.

As a person that has been forced to live without insurance for 5 years and does not qualify for medicaid or medicare and has been forced to endure 3 years of indescribable pain due to an infected gall bladder and kidney stones, please fix the system for others.

Sincerely,

Aaron Slusher
