Comment - Why must we follow the failed ideas of socialism and communism over and over again? What ever happened to the successful doctrine of erring to the side of freedom and liberty? This program is another step closer to civil war...why must we take this path other than to feed the egos of those that wish to rule over us rather than govern in liberty. I, and most Americans wish not to have tyrants ruling but stewards of freedom. Can anybody in government today even understand that? I want to be left alone, and in that sentiment, I am not alone.
