Virginia Medicaid Expansion

The government should NOT be in the business of picking winners and losers. Government run healthcare programs are restricted by mounds of red tape and political faux-pas deciding what gets covered and what doesn't. We need to REDUCE government involvement in our healthcare system. NOT expand it!

Reducing Medicaid will not cause America to go into ruin. But expanding a program we already can't afford very well could. I don't spend more when my family can't pay its bills. I get smart about how I spend my money. Why is our government too good to do the same?

Nothing the government does, does it do well. Thanks, but no thanks. Please don't expand Medicaid. It's costly, it's a reckless expansion of government, and it's bad for the future of America!
