First Name - Amanda

Last Name - Bolen

Organization Name -

Comment - I have two children under age 4 on Medicaid, but I currently do not qualify for Medicaid. Under a Medicaid expansion I would. I lost my teaching job while pregnant with my 1st child (2010) and have been unable to find work. I am at home raising my children, my husband is working and attending college part time working on a graduate degree. His employer does not pay any portion of the spouse premium, so we cannot afford insurance for me. We are hoping to apply for insurance through the exchanges, but we only have less than \$100 left at the end of each month. Please help Virginians like myself and expand Medicaid. Times are hard, and we are not all "trying to work the system for a handout."
