Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

Having health insurance is vital for the health of Virginians. Virginia should accept federal money to expand Medicaid and help Virginians out of poverty . People are suffering! Having folks go to the ER for care is a waste of taxpayer money. The ACA will create jobs and lower the deficit! My brother, who always worked, died five years ago, leaving behind a widow with three young children, due to a lack of health insurance. His cancer was treatable if it had been caught! He was only thirty years old! This has been devastating to our family. I myself need insurance, My best friend needs insurance. My other brother, who has two bachelor's degrees and works for the Commonwealth at a community college, needs insurance. An advanced society's citizens are covered by health insurance. It's unconscionable to have it otherwise.

Sincerely,

Amy Ayers
