Dear Medicaid Innovation and Reform Commission,

It's not right that people who are making so little money should be denied the right to health care. Especially since the expansion will cover the gap between those that now get Medicaid and those that will be able to get subsidized insurance. My daughter is one of these, working several jobs but only making minimum wage so she is at the poverty level. Thanks to the Affordable Care Act, she has been covered by our insurance for an extra 3 years, but now will have to buy coverage of her own. She is only one of many thousands, all of whom deserve better than what they're getting.

Sincerely,

Ann Sutherland
