**First Name** - Anna

**Last Name** - Bruce

**Organization Name** - Home

**Comment** - Over the last several years I have been fighting Obamacare and have made it very plain that I do not want Virginia to expand the Medicaid roles. I really would like all governments out of Medicine all together. Government has no role in this and has done nothing but make the system dysfunctional. Insurance is not Health care! I have not been able to purchase the insurance I want for some time because the government has constantly made insurance companies make me pay for insurance I did not want causing my family to pay more for insurance. Obamacare will cause me and every other citizen to loose all choices in insurance. Virginia must not make this easy and do everything to stop this Federalization of insurance and health care.
