Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

I believe in the expansion of Medicaid under the Affordable Care Act not only for humane reasons. States that have joined with the federal government on the ACA are already experiencing the financial benefits of doing so--the direct federal monies, along expansion of jobs, financial services and insurance companies. Medical care costs in Virginia are not going to disappear because the state didn't participate in this program. Instead Virginia will have the medical costs without the federal money to help defray the costs. It's time for Virginia politicians to step up and show that they really do care about ALL the members of the Virginia community, not just a select few who share their narrow political agenda.

Sincerely,

Anne Dees
