Expand Medicaid for the health of Virginia

Dear Committee Members:

I support the use of Medicaid funds by Virginia to help establish better health care for Virginians. Here in my hometown, Staunton, I know many people that need assistance to receive basic health care. This should not be considered a luxury. It is a necessity. Our economy can only benefit from better health care and a marketplace creating better competition among insurance providers. Medical crises are the leading cause of personal bankruptcies. Many more people remain financially strapped for years due to bills accrued because they lacked health insurance. This is a moral crisis for our state and our country.

I ask that you consider the most vulnerable in our midst as you look at this issue.

With great concern,

Caroline B. Sheridan
