Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

We MUST have an expanded health care. I am in full support of having Affordable Care because we are paying such a price for not having it. There are more people without health care now than ever before. What happens when they get sick, have mental illness, have an accident? Prevention is the best "cure". When people can't afford their health care, they don't do it. The problems are more difficult and more expensive to cure. Right now, we are paying for uninsured in our fees that we pay.

I can't believe that our own Attorney General sued the US Govt. over the health care bill. That is my tax dollar.....That is a wasted of resource right there. That is my investment in the state that has been squandered.

Sincerely,

CArolyn Unger
