First Name - Cathy

Last Name - Hurt

Organization Name -

Comment - We do not need to expand Medicaid! We need to fix it! What I see now is that a lot of people are getting Welfare and Medicaid that don't really need it they just prefer to live that way and not work, it is much easier and from what I understand is that they make more getting benefits than I do working now that is a slap in the face to the tax payer. People that need it don't know how to work the system and don't get it. We the tax payers can not hold up the people that just don't want to work and fill that we owe them something, but we are more that willing to hold up the people that really need us. That is how it use to work if you were on it you really needed it because you were down on your luck but you did not stay on it forever, just till you got on your feet again. And the only other ones that need it are the truly disable and the children because they can not help them self. Please FIX IT NOT MAKE IT BIGGER!
