First Name - Cathy

Last Name - Scott

Organization Name - taxpayer, entrepreneur

Comment - I'll be very brief. This country is broke. I fear for my children's future as a result. Placing a greater financial burden on the states by expanding Medicaid will hasten the states' financial demise as well. Printed money can forestall a federal treasury collapse, but states don't have that option. In the name of fiscal responsibility -- and for love of country with a future -- please REJECT any Medicaid expansion. Thank you for your serious consideration.
