First Name - CHERRY**Last Name** - BRIGGS**Organization Name** - n/a

Comment - Please expand Medicaid so that tens of thousands of Virginians can get the medical care that they need. A healthy Virginia is in the best interest of us all. Many are still suffering from the effects of the slowly recovering recession. Some of these families can't qualify for Medicaid under the current earnings requirement (they make too much money). Likewise these same families can't qualify for insurance under the Affordable Care Act Law because they don't make enough money. Do what is right from both a moral and economic standpoint.
